

SUMMARY

Eight years across every level of AML and financial crime at JPMorgan Chase and Citi — fraud, scams, market manipulation, terrorist financing, and brokerage enforcement — 500+ SARs at the federal-referral level, direct FBI, DOJ, and IRS liaison, and AI-assisted enforcement tools built from the ground up. At both institutions, the policies were already written — I enforced them after the harm had reached people. The next step is contributing to the policies themselves.

EXPERIENCE

Citi · Jersey City, NJ

April 2025 – Present

Officer, CRIU Intermediate Associate

- Investigate suspicious activity across Prime Brokerage, FX, Repo, Margin, and Custody accounts — market manipulation, equities fraud, stock inflation schemes, and trade washing at the institutional level
- Designed and maintain an AI-assisted case triage system using a generative AI scoring model built on custom enforcement criteria — reducing monthly review time by 87%, from 4 hours to under 30 minutes
- Serve as enforcement policy voice in Citi's internal AI team sessions — translating investigative requirements into technical specifications for detection tools and contributing to classifier design decisions
- Query transaction data using SQL across account types to surface patterns, flag anomalies, and accelerate case review
- Identify coverage gaps in AML monitoring frameworks — documenting emerging typologies, drafting structured gap analyses, and driving policy review cycles that produced updated detection criteria and framework revisions

JPMorgan Chase & Co. · Jersey City, NJ

July 2022 – April 2025

GFCC / Detect Officer, Subpoena Escalation Team

- Investigated federal-referral cases spanning romance scams, BEC, TBML, healthcare fraud, check fraud, money laundering, and vulnerable adult exploitation — documenting threat actor TTPs and enforcement rationale
- Processed 110+ subpoenas weekly from the FBI, DOJ, IRS, and state attorneys; liaised directly with agencies to cross-calibrate cases and surface typology patterns across investigations
- Partnered with technology and risk teams to author standardized case routing protocols and enforcement documentation requirements — translating operational bottlenecks into durable policy frameworks; ranked top 3 firmwide, 97% quality rate, 15% above throughput benchmarks
- Led monthly case review sessions with senior leadership and cross-functional colleagues — presenting standout investigations to surface emerging typology patterns and inform enforcement priorities

JPMorgan Chase & Co. · Newark, DE

November 2017 – July 2022

Anti-Money Laundering Associate / Analyst

- Promoted within one year; Blue Ribbon Award 2021 and 2022 — highest quality and throughput metrics firmwide
- Investigated structuring, account takeover, elder exploitation, identity theft, and cross-border wire fraud — authored typology pattern documentation and internal guidance on high-risk account disposition aligned with FinCEN standards
